

New Jersey Dwellings Wrecked By Flood-- Asks Aid of Congress

HOW TO REMOVE

OIL STAINS FROM THE CARPET

The other day a woman was horrified to discover that her maid had left hand prints all around the edge of a new carpet after rubbing the floor with oil.

The maid had evidently been there before, for she knew what to do. She bought a bottle of gasoline and a clean cloth and rubbed each stain several times with the gasoline, using a clean corner of the cloth and repeating the application each time the former one dried, until finally the stain, too, had dried out and no sign of the mischief remained. Here is a hint for some other woman who may have a similar experience. The windows should be opened and the heater closed while using the gasoline and only enough poured from the

bottle to wet the cloth each time, the stopper being kept in the bottle as much as possible.

Gasoline must be used very carefully in the house for fear of getting on fire and as a carpet is not easily removed one should use every precaution to prevent the fumes from spreading.

SAFE FOR BABIES, EFFECTIVE FOR GROWN-UPS

That's Foley's Honey and Tar Compound. It has the confidence of your druggist, who knows it will give you satisfaction. W. H. Nessmith, Statesboro, Ga., says: I have used Foley's Honey and Tar Compound in my family and have sold it in my store and it never fails to cure. Refuse substitutes.—Coop Drug Co.—Advertisement.

Utah Five Loses To Aggie Squad

Logan Athletics Defeat Crimson Team By a Score of 41 To 33

The University of Utah basketball team lost its first game of the season Friday night when the Crimson went down before the Utah Agricultural College squad by a score of 41 to 33.

From start to finish the local five led. In their endeavor to win both teams fought bitterly and at times the game appeared very rough, although there were no rough house tactics employed by either. It was a good game from the spectator's standpoint and one up to the standard of western college basketball.

H. Peterson of the Aggies was the individual star of the game. He and

McIntyre of the Crimson played a hard, clean game and the Logan athlete had the edge by his more accurate passing and basket throwing and on his greater experience. Skidmore and V. Peterson of the Utah five also played a dashing game on the defense and had the visiting forwards been up to the standard of their team mates the Aggies would have had a more desperate battle.

Ben Harker refereed and Joseph Jensen umpired. Their work was good throughout. Following is the lineup:

UTAH	AGGIES
Udy	Owens
Beel	Darton
McIntyre	Peterson
V. Peterson	Warnick
Skidmore	Maughan

SEVERE WEATHER IN ROCKY MOUNTAINS

Colorado and Wyoming Towns Report the Temperatures Far Below the Zero Point

Denver, Feb. 7.—With a minimum temperature of 15 degrees below zero at 5 o'clock yesterday morning and the temperature of zero or below forecast for the next twenty-four hours, Denver and adjacent territory suffered under the first severe cold wave of the season. The lowest temperature in Colorado was reported from Denver, with Leadville second, 12 degrees below. At Cheyenne, Wyoming the thermometer registered 22 below early today with slowly rising temperature forecast. Other Wyoming

points: Sheridan, Laramie and the Yellowstone park district reported temperatures ranging from 24 to 28 degrees below zero. Miles City, Montana suffered with 3 degrees below and the official minimum registration for Havre, Montana for the last 12 hours was 42 below zero.

Little snow and wind accompanied the severe cold and cattle did not suffer acutely.

The cold wave was said to be passing this territory to the area due east of Denver, including Nebraska, Kansas, South Dakota and Missouri, which points it was forecast to reach yesterday by the local weather bureau.

Notable Photo of Mexican Oil Well Set Afire by Rebels.

Photo copyright, 1914, by American Press Association.

The rebels in Mexico, angered at not receiving sufficient tribute as the price of protection, set fire to one of the oil wells on the east coast. The picture shows thousands of dollars' worth of oil going up in smoke.

PIANO BOX POULTRY HOUSES

Excellent Shelter Provided for Twelve During Cold Weather at Comparatively Small Expense.

From two piano boxes remove the backs, then place the boxes back to back and fasten in that position. A door should be cut in one end and a window in the other, the roof could be covered with tarred paper or a piece of old canvas, painted. With a roost and a couple of soap boxes added for nests, you have a good house for a dozen hens. A small yard for exercising and during should be wired off and a small opening cut in the house to allow the hens to have access to the yard.

In the winter when the hens are confined to the house it would of course be close quarters for them if a scratching shed was not provided. This can be easily done, however, by placing a large packing box against one side of the house and fastening it there; all the boards in the box should be removed except the ends and one side which is to serve as a top. A wide board should be nailed along the ground from end to end of the box, this will keep the snow out and also will act as a brace to keep the box together.

DAIRY NOTES

Tickle the cow's palate and increase her production.

The good dairy farmer is the man who appreciates good roads.

Every dairyman ought to have a good soldering kit and know how to use it.

There is something wrong with the dairy cow offered for sale cheap these days.

The best dairy cows will give the best returns if handled quietly and treated gently.

The scales will tell both with milk and butter whether a cow is kept at a profit or not.

We must not be slow to recognize the fact that the best herds are not gotten together by purchase.

Pure air keeps the stables free from disease germs and other bacteria that always eat up the profits.

The capacity of the farm may be increased by building up the silo so as to make each acre yield more.

Help the Hens

Egg laying hens are a great source of profit these days. Keep your hens in a money earning condition. Healthy, well-fed hens never fail to lay.

Our Poultry and egg making foods bring results.
